OBJECTIVE

Passionate and self-driven Full-Stack Web Developer utilizing a dedicated gap year to master modern web architectures, build real-world digital solutions, and prepare for top-tier Computer Science engineering institutions.

TECHNICAL SKILLS

- Frontend:** HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Vite
- Backend & Tools:** Node.js, Express.js, Git, GitHub, Vercel Deployment
- AI & Automation:** AWS Q Integration, AI Prompt Engineering, Workflow Automation

PROJECTS & EXPERIENCE

Freelance Web Developer & UI Designer Remote (Local Enterprises)

- Developed and deployed responsive user interfaces and digital branding assets for local retail shops and dairy platforms (e.g., Lucy Garden digital infrastructure).
- Designed custom 3x6 ft commercial layouts, high-res logos, and business landing pages.

Full-Stack Advanced Authentication System Personal Project

- Created a secure and scalable login/signup interface with modern UI/UX design.
- Integrated frontend components with a live functional backend hosted on Vercel.

Dynamic Developer Portfolio Personal Project

- Built a modern, highly responsive developer portfolio using React and Tailwind CSS.
- Implemented dynamic tool connections, GitHub API integrations, and Vercel Web Analytics.
